

Interactive Options - Scent

Provision's scent delivery system is ideal for Point-of-Purchase sampling and promotions such as scent sampling at vending and kiosk centers. It can be easily incorporated into existing 3D HoloVision displays, fixtures, vending machines and kiosks. The battery powered undershelf mounting system uses magnets to easily attach to any standard retail shelf. The system is loaded with a scent cartridge that is embedded with a unique fragrance. Easy to replace, these cartridges enable you to change scents to coordinate with new themes or seasons and deliver scent in a clean and controlled way.

Product Features:

- Directional scent delivery up to 15 feet
- Over 1,000 quality scents to choose from
- Utilizes replaceable easy to install scent cartridges
- Cartridges last 300 hours, 30 days in typical installations
- Adjustable duration settings
- Motion detection sensor or integrated with your 3D HoloVision display
